Vue Componenten

- Vue2Leaflet.map
- star-rating
- datepicker
- v-select

Node modules

- Btao encryption
- Bulma js
- Axios
- Vue-localstorage
- VeeValidate
- Font-awesome
- Router

Gebruikte api's

- Export api drupal 8 en alle bijhordende api's

- Google geolocation api

▼ **WEB SERVICES**

<input type="checkbox"/>	HAL	► Serializes entities using Hypertext Application Language.
<input type="checkbox"/>	HTTP Basic Authentication	► Provides the HTTP Basic authentication provider
<input checked="" type="checkbox"/>	RESTful Web Services	► Exposes entities and other resources as RESTful web API
<input checked="" type="checkbox"/>	Serialization	► Provides a service for (de)serializing data to/from formats such as JSON and XML

Rollen

1. Niet ingelogde gebruiker

- a. Je kan niet naar mijn autos gaan
- b. je kan geen auto huren
- c. je kan geen auto toevoegen
- d. je kan geen auto verwijderen
- e. je kan geen review schrijven

2. Ingeleogde gebruiker

- a. Je kan alles

Code snippets

```
var hash = Vue.ls.get('auth');  
var unhash = String(window.atob(hash));
```

```
methods: {  
  check: function(){  
    if(Vue.ls.get('id')){  
      this.user.csrf_token = Vue.ls.get('csrftoken');  
      this.user.logout_token = Vue.ls.get('logout-token');  
      this.ingelogd = true;  
    }else{  
      this.user.csrf_token = null;  
      this.user.logout_token = null;  
      this.user.name = null;  
      this.ingelogd = false;  
    }  
  }  
}
```

```
if (navigator.geolocation) {  
  navigator.geolocation.getCurrentPosition(this.showPosition)  
}  
},
```

```
<div class="navbar-item has-dropdown is-hoverable">  
  <p class="routerlink navbar-link white">Account</p>  
  <div class="navbar-dropdown is-right">
